

Capital Letter and Full Stop Rap

Full stop, full stop, put it at the end

A full stop is your friend, telling you it's the end

Before you start something new, a full stop is what you do

Take a little wait and the sentence will be great

It's a full stop, it's a full stop

The end of one idea before the start of something new

You know what to do... it's a full stop, it's a full stop

Just a dot on the line, then a space should be fine

Then a capital letter will make everything better

It's your friend on the end

It's a full stop, it's a full stop
